Paragraph 4 Examinations

Article 4.1 Structure and requirements of the examinations

More detailed provisions regarding the assessment of the units of study are outlined in [the Rules and Regulations of the Examination Board](#).

1. Each unit of study of the programme will be completed by an interim examination. Interim examinations may comprise more than one module examination. Examples are written or oral (interim) examinations and can be taken either physically or digitally. Apart from written or oral examinations, tests with multiple choice and/or open questions, papers, theses, assignments, take-home examinations, reports, presentations or a combination of any of these is possible.
2. In addition to the provisions set forth in paragraph 1 for units of study that also comprise a practical and/or work group, attendance levels and the degree of active participation may be included in final grading.
3. In principle, oral interim examinations are administered in public and these examinations consist of an individual test in which, normally no more than one person is tested at the same time.
4. Oral interim examinations are administered in the presence of at least a second examiner or an observer appointed by the Examination Board. Otherwise the interim examination is to be recorded. In the case that a presentation is part of the final examination, the same rules apply. The same applies to presentations that count for 40% or more of the final grade. This provision does not refer to practical assignments.
5. At the request of the student the Examination Board may, on behalf of the dean, decide that students with an impairment, by way of special examination facilities, sit the interim examinations in a form adapted to that impairment. Prior to making a decision on this matter, the Examination Board may seek expert advice. In so far as facilities in the context of a 'digital test' are concerned, the Examination Board, when formatting the facility, may seek advice from the faculty's digital testing coordinator.
6. In the Education catalogue information will be provided for each individual unit of study on the way in which the interim examinations will be administered.
7. Representative sample questions will be made available to the students at least one week prior to the examination. The student is given the opportunity to check their answers to the sample examination (e.g. via a question & answer lecture or answer model). The sample questions are representative of the format and content of the upcoming interim examination. More sample questions will be available for interim exams with a substantial amount of content. For examination forms such as papers, theses/theses, assignments, reports and presentations, the assessment criteria should be available to students when the assignment is given.
8. The course manual must be published at least one week before the start of the unit of study on the online learning environment. The course manual includes topics for the interim examination preparation, compulsory literature, a table outlining the workload for students, examination methods and weighting of various interim examination parts in the determination of the final grade.
9. Interim examination dates must be announced no later than one month before the start of a semester.
10. If a unit of study starts on the first day of an academic period set by the Executive Board, no requirements may be

imposed on students regarding literature having been studied or assignments having been completed for that unit of study on that day. Necessary preparatory actions - such as reading course manuals or looking for an internship - are permitted.

11. If there are legitimate grounds for it, the Examination Board may decide in special cases to use an assessment method other than that which is specified in the course manual.

Article 4.2 Rules when administering examinations

For the proper course of events during examinations that are administered in the examination rooms of the Radboud University, the dean has adopted the Regulations on Examination Rooms Radboud University in a separate decision. In order to provide the student with proper and clear information these rules have been attached to these regulations as [Appendix 2](#).

Article 4.3 Frequency of examinations

1. For each unit of study opportunity is given for one interim examination and one resit each academic year, on the dates set by the programme director unless provided otherwise in the programme-specific part of these regulations.
2. If the examination referred to in paragraph 1 consists of module examinations, the resit also consists of module examinations, unless stated otherwise in the programme specific part.
3. Contrary to the stipulation in paragraph 1, there will be only one opportunity to take an interim examination for a unit of study that was not taught in that particular academic year. The Examination Board may decide otherwise.

Article 4.4 Language of the examinations

The interim examinations are offered in the programme's language of instruction, unless provided otherwise in the programme specific part of these regulations.

Article 4.5 Registration and application for examinations

1. Students register through OSIRIS for a unit of study of the programme.
2. If students are registered for a unit of study they are also registered for the first interim examination in the corresponding academic year.

Article 4.6 Resit of examinations

1. Interim examinations may be retaken once within the same academic year, even when the result is a pass.
2. In derogation of the provision in paragraph 1 of this article, a paper (report, essay, assignment) that receives a passing grade cannot be resubmitted unless otherwise indicated in the course manual.
3. If a student wants to resit an interim examination, they have to register themselves.
4. Registering for a resit is possible until 11.59 pm on the day before a period of five working days preceding the date of the resit meaning there must always be five full working days between the registration deadline for a particular resit and the date of that resit. The day on which the resit takes place is never included in this period of five working days. After this date registration no longer is possible. The Examination Board, on behalf of the dean, may in special cases decide otherwise as long as this is logistically possible.
5. If a student resits an interim examination, in all cases the most recent grade will determine the final result.
6. The course manual contains provisions on retaking module examinations.
7. If a student does not pass the interim examination within the academic year the student must retake the entire unit of study a following academic year, unless the examiner decides otherwise.

Article 4.7 Determination of results

1. The final grade of a unit of study will be rounded to the nearest whole and half grade points, as follows: 1; 1.5; 2; 2.5; 3; 3.5; 4; 4.5; 5; 6; 6.5; 7; 7.5; 8; 8.5; 9; 9.5; 10, unless the grade is not expressed as a number, see 4.8.

The degree programme's course manual contains provisions on rounding scores of modular examinations for the different units of study.

3. If the result of a unit of study equals or is greater than 6.0 points, the unit of study is passed. If the result of the unit of study equals or is less than 5.0 points, the student has failed the unit of study.

Article 4.8 Alphanumeric results

Without prejudice to the provisions of article 4.7, the following alphanumeric results are established and registered in Osiris in the following cases:

- a. 'P' (pass, voldaan), if the student has met the requirements for completing the unit of study;
- b. 'NA' (not accomplished, niet voldaan), if the student does not meet the requirements for completing the unit of study (for example: this is the case when a student has not participated in a compulsory educational activity);
- c. 'EX' (exemption, vrijstelling), if the Examination Board has granted an exemption, with due consideration for the provisions in these regulations, for a unit of study of the examination programme;

This also applies to written and digital module examinations and to assignments/papers. If there are more than one hundred participants, a grading period of twenty working days applies to assignments/papers and examinations containing open questions.
3. By way of exception the Examination Board may - in consultation with the examiner- extend the period referred to in paragraph 2 or reduce this period. Students must be informed before the expiry of the deadline.
4. The grading period is mentioned on the examination form or the digital learning environment.
5. A minimum period of ten working days must be maintained between the date of the announcement of the result and the date of the resit, except for units of study in the fourth period with both the interim examination and the resit in the same period, where this minimum period is five working days.
6. In derogation of paragraph 5, for module examinations the period between the announcement of the result and the date of the resit may be shorter than ten working days.
7. When the results are published, the student will be informed about the right to inspect their marked work as referred to in article 4.8 and about the possibility of appealing at the Examinations Appeals Board.

5. Time, date and - preferably - place of the inspection will be announced at least five working days in advance.
6. If a student is unable to attend the inspection due to demonstrable circumstances beyond his or her control a separate inspection can be arranged upon his or her request, preferably within the period of time referred to in paragraph 1 of the present article.
7. In all events, inspection will take place no later than five working days before the resit of the examination in question is administered.
8. The provision in paragraph 7 does not apply to units of study in the fourth period with both the examination and the resit in the same period, where this minimum period is two working days.
9. If there is an assessment method that cannot be inspected and reviewed in accordance with the procedure described in paragraph 1, the course manual will describe how it can be inspected in that instance.

Article 4.11 Validity term of examinations

1. The validity term of any examination that has been passed is indefinite, unless provided otherwise in the programme specific part of these regulations, with due observance of the stipulations on this matter laid down in the Act.
2. In case of a restricted validity term, the Examination Board, in special circumstances and in individual cases, may extend the validity term. In the event a student has been granted financial support under the Profiling Fund, as referred to in the Act, because of an impairment or chronic illness, the Examination Board extends the period, at any time, at least by the number of months that the financial support has been granted by the Executive Board.
3. The student is notified, at least 16 weeks prior, of the expiry of the validity term applicable for an examination that was passed. This notification, by or on behalf of the dean, states that the relevant knowledge, understanding and/or skills are outdated and explains the reasons why.
4. The provisions in paragraph 1 of the present article do not apply for modular examinations. The validity term of modular examinations is always limited to the end of the relevant unit of study, unless this has been otherwise specified in the course manual of the relevant unit of study.

Article 4.12 Determination of final Master's examination results

1. When students have completed all examinations successfully, they must apply for the final Master's examination themselves.
2. The Examination Board will determine the results of the examination as soon as the student has passed the examinations forming part of the units of study of the programme in question and has submitted proof thereof. An examination shall be dated on the date of the last successfully passed interim examination, as long as the Master's examination is requested within four weeks after the last interim examination at the latest. If four weeks or more have passed, the examination date will be the day of the month on which the Master's examination was requested.
3. Prior to determining the results of the final Master's examination, the Examination Board itself may conduct an inquiry into the student's knowledge with respect to one or more units of study or aspects of the degree programme. If this is the case, this will be elaborated upon in the programme-specific part of these regulations.
